Professional Summary

Software Engineering graduate with strong foundations in JavaScript, React.js, Node.js, Express.js, MongoDB, Java, Spring Boot, SQL, and Data Structures Algorithms. Experienced in building responsive web applications, RESTful APIs, and full-stack projects with clean, maintainable code. Passionate about solving real-world problems, optimizing application performance, and contributing as a MERN Full Stack Engineer in a fast-paced startup environment.

EDUCATION

Dr. Babasaheb Ambedkar Technological University,Lonere Jan 2021 - July 2025
Bachelor of Technology - Information Technology *Raigad, Maharashtra*

Priya Vidya Vihar English School and Junior College April 2020 - June 2021
Higher Secondary Certificate - State Board *Nagpur, Maharashtra*

Technical Skills

- Programming Languages: Java, Javascript , SQL
- FrontEnd:React.js, HTML5, CSS3, Tailwind CSS
- Backend Development: Node.js, Express.js, Spring Boot, Rest API's , JSON , HTTP Methods , CRUD Operation , MongoDB
- Core Subjects: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks , SDLC
- Web Technologies: HTML5 , CSS3 , TailwindCSS
- AI and Emerging Technologies : Prompt Engineering , LLM , RAG
- Cloud And DevOps : Docker, AWS , CI/CD
- Tools And Platform : Postman or Hopscotch,Playwright, Git, GitHub,Vscode

Training / Certification

Technical Support - AI Training Program 2026
MCR HRD Institute *Government Initiative*
- Provided technical support to participants during AI training workshops.
- Diagnosed and resolved software installation issues.
- Coordinated technical activities for multiple training sessions.
- Supported smooth execution of training sessions in an AI-driven learning environment.

Projects

- **SmartAttend - Training And Attendance Management System**
  - Developed a Training Attendance Management System to manage trainee records, attendance tracking, and training schedules through a centralized platform.
  - Designed responsive user interfaces using HTML, CSS, JavaScript, and Tailwind CSS, ensuring a seamless user experience across devices.
  - Implemented backend functionalities for attendance management, user authentication, and CRUD operations using Java and Spring Boot, with MySQL for data storage.
  - Used Git and GitHub for version control, following clean coding practices to improve maintainability and collaboration.
- **AI-Powered Resume Analyzer using NLP**
  - Developed an AI-powered resume analysis system that evaluates resumes based on job descriptions, extracts important information, and provides suggestions to improve resume quality and job matching.
  - Built an AI-based resume analysis application to evaluate resumes and match them with job descriptions.
  - Implemented NLP techniques for resume parsing, keyword extraction, and skill identification.

Problem Solving And Certifications

- Solved 50+ Data Structures and Algorithms problems on LeetCode.
- AI Training Program Participation - MCR HRD Institute , Hyderabad
- Full Stack Development Program (Java, HTML, CSS, JavaScript , MERN Stack) - upGrad (In Progress)
